The Mauna Loa, arriving today, brought the following freight: 200 bags of sugar, 20 bags of crates of pigs, 1 crate of chickens, 1 crate turkey, 1 cow, 2 calves, 3 horses, 30 head cattle, 7 bundles of hides, 3 bundles sheep skins, 5 barrels of pears, 5 barrels of watermelons, 7 boxes dried fish, 28 barrels of oranges, 3 bales of tobacco, 60 bunches of bananas, 4 bags of avo, 100 bags of coffee.

A fact that is interesting in the freight record is that the former record was held by the Nevada, at the time when Chief Engineer Kilgusard, of the Hawaiian, was in charge of the engine room of the American-Hawaiian ship. It is said by some of his men that if he was placed on the Kahu he would set her in place for the trans-Pacific record.

The Hawaiian brought down one passenger, G. E. Gentry, who is said to be a chemist who will take a position in one of the local drug stores. Her cargo consists of 1500 tons of miscellaneous merchandise consigned to Honolulu merchants.

## BOMBARDMENT OF BALLOTS

(Continued from Page 1)

Honolulu girls and the Maui girls and the Kauai girls are not likely to allow the tremendous lead of Hilo to be long maintained. These young women and their friends are thoroughly in earnest. They have lots of time in which to make good and there are new subscribers yet to be canvassed who will deliver their votes. It is quite probable that some of the young ladies with only a hundred or less votes at this time will be in the front rank a few weeks hence. It is only a matter of enterprise backed by a worthy desire to take advantage of the splendid outing offered by the Bulletin, that will enable any young woman to become a member of the greatest promotion committee Hawaii ever sent out.

The delegation sent to Washington, D. C., will not be in with this "Lucky Six" that will tour the Pacific Coast. Every town they pass through will have the crowds out waiting for them and with plans complete for a good time under the direction of Mrs. Weathered. The promotion work has already begun in fact. Mrs. Weathered before leaving for San Francisco placed with the Bulletin a list of addresses of people along the route. These people will be supplied with copies of the Bulletin and take a personal interest in the progress of the contest. When it is complete they will have a general knowledge and almost acquaintance with every member of the party, so it will be like meeting old friends when the travellers arrive.

This is where the outside Islands come in for their share of the advertising and promotion. Persons and committees along the Coast will not be asking "Where is Hilo?" or "Is this Island of Kauai a part of Honolulu?" and a lot of similar questions which we all know about, and the result of an unfortunate lack of information.

As a proposition for the advancement of Hawaii the Bulletin's Pacific States Tour is the greatest thing ever presented to the public.

The young ladies whose names appear in the list of candidates are the prettiest and best the Islands afford. This, of course, does not shut out other pretty ones in the best circles, of which Hawaii has an unending supply.

From day to day the Bulletin will tell you the young ladies are, so that every reader may be acquainted with each candidate and be sure to give a vote or subscription for some one of them.

No vote should be wasted in this contest.

\*\*\*\*\*

This includes representation from 21 States, and from the following committees: Ways and Means, Appropriations, Immigration, Interstate and Foreign Commerce, Rivers and Harbors, Public Buildings, Territories, Naval Affairs, Fortifications, Public Lands, Education, Agriculture, Judiciary, Merchant Marine and Fisheries, Claims, Military Affairs, Irrigation, Foreign Affairs, Railways and Canals, and other minor committees.

A number of the renewal and new invitations will necessarily be declined because of the change of date. At the time of the last mail advices from Washington, it was estimated that the party would include about 100 members, of whom about 18 would be accompanied by their wives. The invitations have been issued on the same basis as that of the Taft party—namely: that transportation is furnished to members only, but any wives who accompany the party will be the guests of the Territory during their stay in the Islands.

The task of making selections from the various committees has been a difficult and delicate one, but it is believed that the list invited is not only a thoroughly representative one, but includes most of the members who are directly interested in Hawaiian legislation, as well as some others whom we particularly desire to interest in Hawaiian affairs.

Secretary Taft has kindly arranged to hold back most of the quota of troops and officers that would regularly return on the transport Sherman, reaching Honolulu June 4, in order to give space for the return of the Congressional party. He has also agreed to advance the return of the Sherman so that she will leave Honolulu for San Francisco about May 25, as most of the members did not desire to have their trip unduly prolonged, and this arrangement will give about two weeks and a half in the Islands. It is likely that a small number of members will also come on the transport arriving in Honolulu June 5, and will later go on to Manila and the Orient.

Efforts have also been made to have the entire Immigration Commission visit Hawaii during the summer, but, as the Commission has not yet organized, it is impossible to know definitely of their decision.

The main party will assemble at Chicago on April 26th and will have a special car on the Overland Limited to San Francisco.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

## SIERRA ON HAND BEFORE EXPECTED

The Sierra, by far the best of the three ships of the Oceanic company, which are to be removed from the Australian run, arrived this morning early, a full day before she was expected. Fine weather all the way and a good ship are the reasons given by the officers for her unexpected appearance at this port.

The Sierra brings a large passenger list, six of whom are for this city, and will leave for San Francisco this afternoon at 5 o'clock, taking every passenger whom she can accommodate. The traveling people of this city will be very sorry to see Capt. Houdette go on some other route as he is one of the most popular officers who comes to this port, keeping his ship up to a point of perfection which is highly appreciated by those traveling with him.

The Sierra's cargo for this city amounts to 45 tons, and that for San Francisco to 450 tons. The Honolulu freight consists of 150 cases of onions, 200 cases of potatoes, 25 cases of jams, 100 chests of tea, 21 crates of frozen mutton, and a number of cases of oranges, wines, whiskies and other merchandise.

The only person of any note on board is Charles L. Fletcher, the American comedian, who has been on a tour of Australia. He spent about an hour last night entertaining the passengers with various specimens of his art, with which all were greatly pleased.
